

Mr. O'Brien's Homework Policy

Here's the deal for organizing your unit's homework to be turned in on test day:

Complete & Check: Make sure each assignment is finished and checked (with ✓ or ✕).

Correct: Correct each error by reworking the problem in a different color. If the problem does not require re-working, jot a note explaining your error.

Organize & Staple: Arrange homework in order (oldest homework on top). Make sure each assignment is labeled. Staple together with the revision day cover sheet on top.

I will grade your homework as follows:

Each assignment gets 1, 0.5 or 0 points based on the following rubric:

0	0.5	1
Not all problems attempted.	All problems attempted, but not all checked or corrected or explained (working or a note).	All problems attempted, checked, and corrected with working or a note explaining your error.

You will get **one additional point** for ensuring that all work is organized and stapled.
